Vocal powerhouse Lisa Ramey has a vast repertoire of music with productions with elements of R&B, rock, reggae, and gospel. Her discography reflects her creative and boundless mindset, as she moves across genres with unparalleled ease and adaptability. She returns with her latest offering 'Internet'.

In terms of production, 'Internet' focuses on an R&B, pop, and soul genre mixture. The singer welcomes this release fully as she continues to display her natural ability and personal development in the music business.

Compared to her earlier upbeat releases, Lisa Ramey notes that when she and her producer started experimenting with a chill kind of vibe for 'Internet', this particular offering has a feel-good energy that they wanted to explore.

Speaking on her latest offering, Lisa Ramey said: *"It's not easy going up against technology. People are worried if they'll have jobs in the future and I'm worried if a guy will ever look at me again. Video games are incredible. I find that even I will put on VR and be entranced for hours"*

before I enter back into the real world. I don't even have to talk about how much we can hang out on our phones. We have the world in our pockets. There's so much to discover, to learn, and to be entertained by. How am I supposed to compete with all the fun?!! Full-grown men love video games and I get it but when will you put it down and see me? Does the video game touch you like I do? Does it love you back like I do? Does it feed you like I do? Will it replace me? I love video games but when do we put them down and look each other in the eye? Remember connecting person to person? Maybe it's a thing of the past....so where does this leave me?"

The multi-talented singer is still showcasing her amazing musical abilities as 'Internet' gives her fans a somewhat different sound that highlights variety, but she is still the same extraordinary artist that we have come to love. With one foot firmly planted in historical musical traditions, the old soul is courageously stepping into the future with her music.
